

Opportunity Spaces

600/vertical corpus — 88.5% classified (969 pending, daily NavyAI quota)

Generated 2026-08-22 11:30 UTC

7683

Articles processed so far

723

Classified (≥ 1 dimension)

141

Opportunity spaces found

6053

No match (correctly excluded)

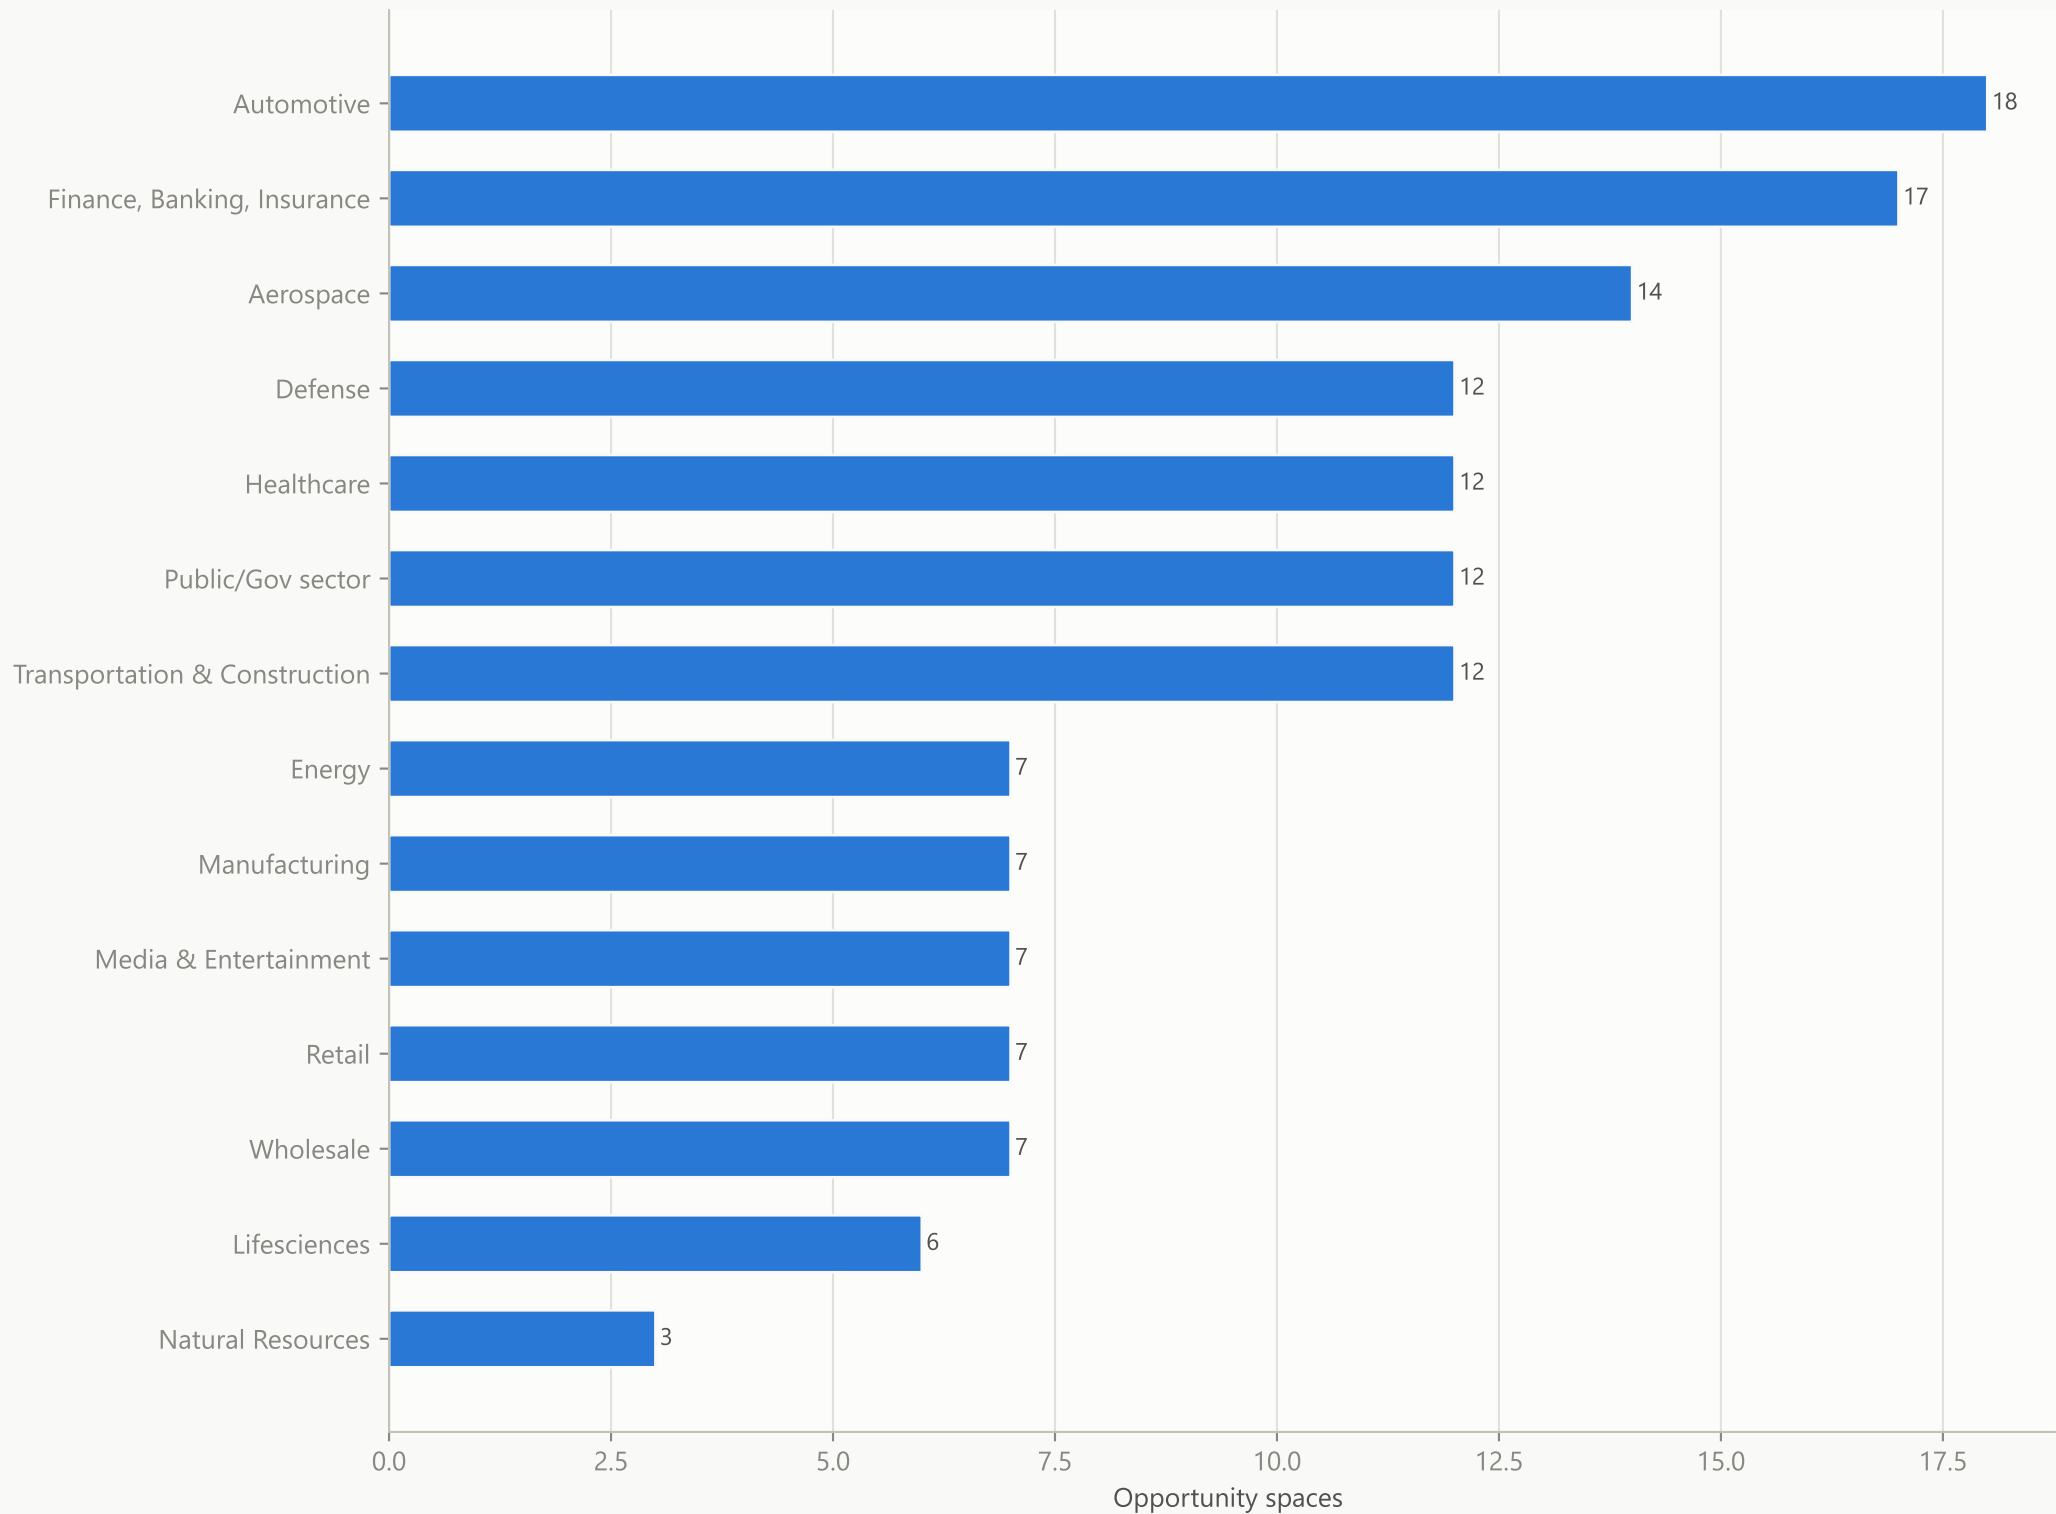

Status breakdown: classified=723 (9%), no_match=6053 (79%), needs_review=907 (12%)

An opportunity space requires BOTH use_case and technology to be matched on the same article. Many 'classified' rows have only one dimension filled and don't form a space — of 723 classified rows, 215 article-links form the 141 complete triples below.

Token usage tracked so far: 7,836,662 tokens across 5083 rows.

Corpus: select_corpus.py's 600/vertical pool (8,400 total, RSS/TED prioritized over gnews, 2b-filtered, best-effort 50/25/25 recent/~1y/~5y mix) — not the full 15,283-article collection. 969 pool articles still pending: a NavyAI daily token quota was hit mid-run ("Usage resets at midnight UTC") — resuming after reset is a straight rerun of the same command, already-classified articles are skipped automatically.

Opportunity spaces by vertical
